COURSE DESCRIPTIONS

COURSE #1

Overview of Public Sector Exposures and Risk Management

Why is skilled risk management so critical to organizational success? What does an effective Risk Management professional do? Join with colleagues to learn about the responsibilities of a Risk Manager and expand your knowledge and understanding of how risk management contributes to your organization. You will walk away with key concepts and tools used by risk managers and form new insights into the unique loss exposures public entities face. You will also learn about the foundational laws and regulations that shape the profession.

COURSE #2

Insurance Administration, Review and Risk Transfer

Manage your organization's risk and exposure like a pro after taking this class. You will master the complex and confusing world of insurance, learn to successfully transfer risk, and apply new knowledge about working with brokers and navigating contracts to minimize risk for your organization.

COURSE #3

Property and Liability Claims, Safety and Loss Control

Plan proactively! After taking this class you will know how to identify and evaluate your agency's particular loss exposures while implementing sound proactive loss control measures. Impress your management with strategies for navigating investigations and litigation and assessing current trends and evolving risk.

COURSE #4

Workers' Compensation

Handle one of the biggest areas of risk management flawlessly after taking this session. Come back armed with strategies and tools for how to effectively administer standard workers' compensation and employer's liability policies within your organization. You will engage in hands-on exercises that provide you with practical guidance on how to administer claims and maintain records.

COURSE #5

Disability Management and Early Return to Work

Demystify this complex area of risk management when you attend this important session. You will explore both work-related and non-industrial injuries as well as the similarities and distinctions between "temporary modified duty" and "reasonable accommodations." Learn how to engage in the interactive process and uncover the intersection between medical limitations and workplace disabilities, as well as the benefits of maintaining an effective Early Return-to-Work (ERTW) program.

THANK YOU TO OUR SPONSORS!

THANK YOU TO KEY CONTRIBUTORS!

This program came about from the collective efforts and passions of many dedicated individuals who longed for a guide to assist Risk Management professionals within California public entities. Without their insights and commitment, this project would not have come to fruition.
